

Are You On The Same Page With Your Business Leaders?

Digital Transformation is hard. But it doesn't need to be. What if you used five different proven methodologies to turn your ideas into reality in 90 days? What if you were supported by a DevOps Architect throughout those 90 days? What if you could build your business case for the funding you need to succeed?

Hold A Digital Transformation Workshop To Get Business Buy-In

1 Day On-Site Workshop with Skilled Facilitators

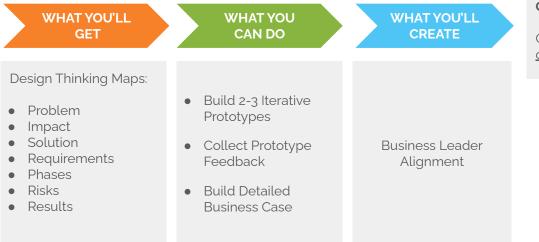

Get Real-Time Technical Coaching and Advice

Get 90 Days DevOps Architect Coaching and Business Case

People resist change unless they are part of the change. At a Digital Transformation Workshop, business leaders and IT team members collaborate on a solution, then get feedback and buy-in from end-users. More importantly, you'll get 90 days of Technical and Change Management Coaching to overcome obstacles.

FPRENEURSHIP

Experience. It's What Matters.

Everyone claims to be experienced. But are you getting digital transformation experts?

Shadow-Soft is a firm of 15-year award-winning Open Source technologists. We only hire experienced people (10+ years) with 100+ certifications (AWS, GCP, Azure, EKS, GKS, AKS, Red Hat, SUSE) because you can't be a guide if you haven't done the dirty work.

If you want "newbies" or "freshies", call the GSIs. If you want opinionated perspectives, call the ISVs. But if you want to know what works and what doesn't, call us. We'll show you how to get things done. And done right.
