

Is Your Environment Stable Enough For Rapid App Migration?

There is a never ending need for speed. But at what cost? Do you experience unexpected crashes? Are you constantly fighting fires? Do business leaders complain that it take weeks or months to spin up applications? Do developers struggle to get to production? What if you could stop the madness in 1 day?

Hold A Stability & Migration Workshop To Optimize Your World

- 1 Day On-Site Workshop with Skilled Facilitators
- Get Real-Time Technical Coaching and Advice
- Get 12-Month Roadmap and Business Case Presentation

There are people who make things happen, people who watch things happen, and people who wonder what happened. To be successful, you need to makes things happen. At a Stability & Migration Workshop, you'll become thankful for problems because you'll create more solutions in 1 day than you could in 1 year.

Who Is Shadow-Soft?

Experience. It's What Matters.

Everyone claims to be experienced. But are you getting digital transformation experts?

Shadow-Soft is a firm of 15-year award-winning Open Source technologists. We only hire experienced people (10+ years) with 100+ certifications (AWS, GCP, Azure, EKS, GKS, AKS, Red Hat, SUSE) because you can't be a guide if you haven't done the dirty work.

If you want "newbies" or "freshies", call the GSIs. If you want opinionated perspectives, call the ISVs. But if you want to know what works and what doesn't, call us. We'll show you how to get things done. And done right.

Capabilities

Public Cloud - AWS, Azure, GCP
